

Environmental Services

Benchmark Environmental Engineering provides comprehensive environmental inspection, consulting, and training services to homeowners, businesses, property owners, property managers, insurance companies and government agencies in California and throughout the West Coast. We provide comprehensive reporting which catalogs all known conditions and contains recommendations for further study and analysis.

With over 20 years of experience in environmental testing, inspection and education and a national reputation for specializing in complex environmental cases, Benchmark Environmental Engineering is a leader in environmental consulting. We're able to provide service for projects of all sizes.
